**Subject:** FW: Regulatory response by HIQA and the Chief Inspector of Social Services to COVID-19

Hi Susan

As per my call just now we would appreciate clarity on the regulatory notice – Cmmuinque 2 – issued 12<sup>th</sup> March

Attached states NF01 notification which is now saying any death requires reporting.

The 2013 Care & Welfare Regulations advises as follows:

*The Chief Inspector shall be notified of the occurrence of any of the following events within 3 days of such occurrence and a record of the event shall be kept: (a) the unexpected death of any resident, including the death of any resident following transfer to hospital from the designated centre and the circumstances and cause of death when established.*

Can you clarify

Thanks

Tadhg
