Hi John,

I hope all is well with you.

We have received the COVID test results and there are [REDACTED] additional confirmed cases of COVID 19 in [REDACTED]

This brings to a total of [REDACTED] the number of confirmed cases in our [REDACTED]

Confirmed COVID cases in [REDACTED]:

Ward 1 – [REDACTED] female case confirmed.

Ward 2- [REDACTED] confirmed males.

Ward 3- [REDACTED] suspected case – swabbed yesterday – results due in late this pm.

Ward 4 – [REDACTED] confirmed cases.

ROOM 5 Single room – [REDACTED] confirmed case.

[REDACTED] female case in the single room and [REDACTED] suspected Case today in the [REDACTED]

[REDACTED] – the [REDACTED] suspected cases- swabs returned negative.

[REDACTED] suspected [REDACTED] confirmed cases

[REDACTED] male suspected case yesterday (very cardiac with chest pain and temp)

Swab due back today

PPE in stock

Staff trained in PPE

Contact tracing being done by occ health

[REDACTED] staff now positive.

Telecon with [REDACTED] today

My biggest challenge is staff coverage and staff fear and anxiety around the COVID risks

Thanking you,

Regards,

[REDACTED]
