Subject: follow-up on query

Good evening Tadhg,

I am following up on a query you raised during your meeting with Mary and Susan this morning. Following the assessments of compliance the inspector will communicate with the provider in one of the following ways:

1. Where all regulations are compliant the provider will receive an e-mail with the regulations reviewed and the judgement descriptor of compliant.
2. Where some of the regulations are not compliant (this includes substantially compliant regulations), the provider will receive a cover e-mail indicating which regulations were compliant and a compliance plan will be attached highlighting those regulations that require action.

I hope this answers your query.

Kind regards,

Carol Grogan
