Assessment-Judgment Framework for the Monitoring of International Protection Accommodation Service Centres

Version 1.3: February 2025

Safer Better Care

About the Health Information and Quality Authority

The Health Information and Quality Authority (HIQA) is an independent statutory body established to promote safety and quality in the provision of health and social care services for the benefit of the health and welfare of the public.

Reporting to the Minister for Health and engaging with relevant government Ministers and departments, HIQA has responsibility for the following:

- **Setting standards for health and social care services** — Developing person-centred standards and guidance, based on evidence and international best practice, for health and social care services in Ireland.
- **Regulating social care services** — The Chief Inspector of Social Services within HIQA is responsible for registering and inspecting residential services for older people and people with a disability, and children's special care units.
- **Regulating health services** — Regulating medical exposure to ionising radiation.
- **Monitoring services** — Monitoring the safety and quality of permanent international protection accommodation service centres, health services and children's social services against the national standards. Where necessary, HIQA investigates serious concerns about the health and welfare of people who use health services and children's social services.
- **Health technology assessment** — Evaluating the clinical and cost effectiveness of health programmes, policies, medicines, medical equipment, diagnostic and surgical techniques, health promotion and protection activities, and providing advice to enable the best use of resources and the best outcomes for people who use our health service.
- **Health information** — Advising on the efficient and secure collection and sharing of health information, setting standards, evaluating information resources and publishing information on the delivery and performance of Ireland's health and social care services.
- **National Care Experience Programme** — Carrying out national service-user experience surveys across a range of health and social care services, with the Department of Health and the HSE.

Introduction to this assessment-judgment framework

The Health Information and Quality Authority (HIQA) is responsible for assessing compliance with the *National Standards for accommodation offered to people in the protection process*. HIQA has published this assessment-judgment framework to support this function.

HIQA advocates for and promotes a human-rights based approach to health and social care services that upholds the resident's core human rights principles of fairness, respect, equality, dignity and autonomy. Respecting diversity, promoting equality and treating people fairly and with dignity as well as including people in decisions about their lives promotes and supports safe and effective service delivery.

HIQA uses a standardised approach to its inspection and monitoring in order to consistently carry out its functions. We call this the Authority's Monitoring Approach (AMA). All HIQA inspection staff adhere to this approach and to any associated procedures and protocols.

This monitoring approach does not replace the professional judgment of HIQA authorised persons, referred to hereafter as inspectors. Instead, it will give inspectors a range of procedures, protocols and tools to assist them in carrying out their functions. This assessment-judgment framework and the associated guidance are some of these tools.

Applying AMA and using this assessment-judgment framework will help HIQA to ensure that each provider is treated fairly and that the assessment of compliance against the national standards is timely, consistent and responsive to any risks identified within services.

It is the responsibility of each provider and persons who participate in the management of accommodation offered to people in the protection process to ensure they are delivering a safe and effective service that complies with the standards and all other relevant legislation, ensuring residents' rights are respected and upheld.

The framework also provides transparency for service providers and the public on how HIQA assesses and makes judgments about compliance against the national standards.

Applying the Authority's Monitoring Approach does not replace or take away from a provider's responsibility to ensure that they comply with the *National Standards for accommodation offered to people in the protection process* and provide safe and high-quality services for people accessing their services. More information on how we monitor IPAS accommodation centres can be found at www.hiqa.ie.

Assessment-judgment framework

There are two purposes to this assessment-judgment framework:

- It supports HIQA inspectors in gathering evidence when monitoring or assessing a service and to make judgments on compliance. The framework sets out examples of the lines of enquiry to be explored (questions to be asked) by inspectors.
- It supports providers to self-assess their own service against national standards.

Judgment descriptors

We make judgments on whether the provider is: compliant, substantially compliant, partially compliant or not compliant with the standards associated with the findings. Table 1 below shows what these levels of compliance mean. We term them 'judgment descriptors', and they are used to assess performance against each of the standards.

Table 1. Judgment descriptors

Compliant: A judgment of compliant means that on the basis of this inspection, the service is in compliance with the relevant national standard.
Substantially compliant: A judgment of substantially compliant means that the service meets most of the requirements of the relevant national standard, but some action is required to be fully compliant.
Partially compliant: A judgment of partially compliant means that the service meets some of the requirements of the relevant national standard while other requirements are not met. These deficiencies, while not currently presenting significant risks, may present moderate risks which could lead to significant risks for people using the service over time if not addressed.
Not compliant: A judgment of non-compliant means that one or more findings indicate that the relevant national standard is not being met, and that this deficiency is such that it represents a significant risk to people using the service.

HIQA inspection staff should apply the assessment-judgment framework in conjunction with the:

- *National Standards for accommodation offered to people in the protection process.*¹
- Directive 2013/33/EU (the recast-Reception Conditions Directive)
- European Communities (Reception Conditions) Regulations 2018 (as amended)
- European Communities (Reception Conditions) (Amendment) Regulations 2023.

In addition, the assessment-judgment framework should also be applied in conjunction with HIQA's monitoring approach policy, procedures and guidance.

How this document is structured

This assessment-judgment framework document is organised into two overarching sections which we term 'dimensions'. These are the dimensions of:

- 1. Capacity and capability**
- 2. Quality and safety**

Capacity and capability of the provider to deliver a safe quality service

The dimension of capacity and capability reviews the governance, leadership and management arrangements in place in the service. It considers how effective they are in ensuring that a good-quality and safe service is being sustainably provided. It outlines how people who work in the service are recruited and supported through education and training, and whether there are appropriate systems in place to underpin the safe delivery and oversight of the service.

Quality and safety of the service

The dimension of quality and safety reviews the experiences and support people receive on a day-to-day basis. It is a check on whether this is a good quality and caring service which ensures people are safe. It includes information about the environment where the service is provided.

¹ These standards were developed and published by the Department of Justice and Equality.

Themes

In each of these dimensions are a series of what we call 'themes', or aspects of service provision, such as 'Governance, accountability and leadership' and 'Person-centred care and support'.

These dimensions and their respective themes are illustrated in Table 2 below.

Table 2. Dimensions and themes

Dimension of capacity and capability

THEME 1: Governance, Accountability and Leadership
THEME 2: Responsive Workforce
THEME 3: Contingency Planning and Emergency Preparedness

Dimension of quality and safety

THEME 4: Accommodation
THEME 5: Food, Catering and Cooking Facilities
THEME 6: Person-centred Care and Support
THEME 7: Individual, Family and Community life
THEME 8: Safeguarding and Protection
THEME 9: Health, wellbeing and development
THEME 10: Identification, Assessment and Response to Special Needs

One dimension cannot exist without the other: service providers will never sustainably deliver a good service without having good governance and oversight, the right resources, active use of information and a competent and confident workforce.

In general, person-centred care and support, safeguarding and protection, and better health, wellbeing and development for people living in the centre all happen because the capacity and capability arrangements are there to ensure that they happen.

In this assessment-judgment framework, lines of enquiry under each dimension and theme are set out. The overarching dimension is first listed, followed by the related theme — such as Theme 1: Governance, Accountability and Leadership. This is immediately followed by the standard number and text of the standard. Underneath are the lines of enquiry which are the questions to be addressed to assist with assessing compliance.

Section 1. Dimension of capacity and capability

This section focuses on the overall delivery of the service and how the provider is assured that a quality, safe and effective service is sustainably provided to people living in the centre.

It includes how the service provider:

- makes sure there are effective governance structures with clear lines of accountability so that all members of the workforce are aware of their responsibilities and who they are accountable to
- plans, manages and organises its workforce to ensure enough staff are available at the right time with the right skills and expertise to meet the service's current and future needs
- ensures that the necessary resources are in place to support the effective delivery of quality care and support to people using the service
- uses information to plan, deliver and manage services provided to residents to ensure the delivery of high-quality, safe and effective services.

Theme 1: Governance, Accountability and Leadership

Dimension: Capacity and capability	
Theme 1: Governance, Accountability and Leadership	
Standard 1.1 The service provider performs its functions as outlined in relevant legislation, regulations, national policies and standards to protect residents living in the accommodation centre in a manner that promotes their welfare and respects their dignity.	
Lines of enquiry	
	<ol style="list-style-type: none"> 1. Does the accommodation centre operate in compliance with the relevant regulatory requirements and national standards? 2. Has the provider notified HIQA of serious incidents in line with the requirements of regulation 27H of the European Communities (Reception Conditions) (Amendment) Regulations 2023? 3. Is new and existing legislation and national policy, such as Safeguarding Vulnerable Persons at Risk of Abuse 2014, the Domestic Violence Act 2018, Children First Act 2015 and Children First: National Guidance for the Protection and Welfare of Children (2017), reviewed on a regular basis to determine what is relevant to the accommodation centre, how it impacts on practice and to address any gaps in compliance? 4. Do staff in the accommodation centre demonstrate understanding of the relevant legislation, regulations, policies and standards for the rights and care and welfare of children and adults (residents) living in the centre, appropriate to their role, and is this reflected in all aspects of their practice?

	<p>5. Does the service provider cooperate and respond in a timely way to assessment, monitoring, inspection or investigation of its service, including the:</p> <ul style="list-style-type: none"> — development and implementation of quality improvement plans where required — provision of information and documentation as requested?
--	--

Dimension: Capacity and capability

Theme 1: Governance, Accountability and Leadership

Standard 1.2

The service provider has effective leadership, governance arrangements and management arrangements in place and staff are clearly accountable for areas within the service.

Lines of enquiry

	<ol style="list-style-type: none"> 1. Are there clearly defined governance arrangements and structures that set out the lines of authority and accountability, stipulate individual accountability and specify the roles and responsibilities of all staff in the service? 2. Are the governance arrangements and individual responsibilities explained to and understood by residents and staff? 3. Is there an internal management structure, which includes the reception officer, and is appropriate to the size, ethos and purpose and function of the service, and which is known to staff and residents? 4. Is leadership demonstrated at all levels in the service? 5. Is there a culture of respect for human dignity, equality and diversity and kindness?
--	---

	<p>6. Is there a manager in place with the appropriate qualifications, and or skills and experience necessary to manage the accommodation centre with regard to the size of the centre, the services it provides and the number and needs of residents?</p> <p>7. Do managers:</p> <ul style="list-style-type: none"> ▪ have experience working with residents from diverse cultural backgrounds and with protection applicants and refugees ▪ demonstrate an awareness of basic mental health issues and an understanding of, medical, social care and social welfare systems ▪ demonstrate an awareness of adult safeguarding, child welfare and protection guidance and youth work practice ▪ demonstrate strong communication and active listening skills ▪ demonstrate a compassionate and empathetic style of leadership and management which respects the dignity, equality and diversity of residents? <p>8. Is the service adequately resourced, and are the resources available effectively allocated to ensure the provision of person-centred, safe and effective services?</p> <p>9. Are strategic and operational plans in place which set clear objectives for the service? Are these plans monitored for effectiveness and implementation and to ensure that objectives are being met?</p> <p>10. Is a risk management framework and supporting structures in place for the identification, assessment and management of risk?</p> <p>11. Are procedures specified in the child safeguarding statement and risk assessment in place and known to all staff and residents?</p>
--	--

	<p>12. Are there systems in place to effectively manage risk, including risk to children, and is there a designated person or people to contact in an emergency?</p> <p>13. Is there a transparent complaints process in place whereby a record maintained of all adverse events and complaints, including details of the investigation, reporting and resolution? Is this regularly reviewed and is learning implemented to improve practice in the service?</p> <p>14. Is there a culture of safety, openness and transparency in the service that welcomes, encourages and acts on feedback from people living in the service? Are residents reassured that their perspectives are valued and that there are no adverse consequences for raising an issue or making a complaint?</p> <p>15. Are there arrangements in place to effectively plan and manage service change, including closure of the centre?</p> <p>16. Is there a safe and effective system in place to actively include and involve children and adults living in the accommodation centre to express their views and to encourage their participation in matters which affect them?</p> <p>17. Is there a culture of continual quality improvement in the service, which is informed by the views of children and adults living in the accommodation centre?</p> <p>18. Are residents living in the accommodation centre provided with all information about the service, their rights and entitlements, statutory services relevant to them, and any planned changes which may affect them, in a way they can understand?</p> <p>19. Are there procedures in place to address issues of discrimination or violations of human rights if they occur and to actively prevent their reoccurrence?</p>
--	--

Dimension: Capacity and capability	
Theme 1: Governance, Accountability and Leadership	
Standard 1.3	
There is a resident charter which accurately and clearly describes the services available to children and adults living in the centre, including how and where the services are provided.	
Lines of enquiry	
	<ol style="list-style-type: none"> 1. Is there a resident charter in place which is provided to residents on their arrival, which is in an accessible format, and which sets out the following: <ul style="list-style-type: none"> — how new arrivals are welcomed to the accommodation centre — the name and role of each staff member in the accommodation centre — how the accommodation centre meets the needs of residents as much as possible — how the individual dignity, equality and diversity of each resident is promoted and preserved — that all residents are treated with respect for their dignity, equality and diversity — that all personal information is treated confidentially, other than in certain specified circumstances — how residents are encouraged and facilitated to give their views on an ongoing and regular basis regarding their welfare and experience of the service and how their views inform decision-making in the service — how residents can make a complaint, the complaints process in place, and how the outcome of any

	<p>investigation of a complaint are provided to complainants</p> <ul style="list-style-type: none"> — how residents will be effectively communicated with on events and changes in the accommodation centre — information on routines in the accommodation centre and the service provider's expectations of residents to ensure the safety and welfare of all residents and members of staff working in the accommodation centre? <p>2. On arrival at the service, are children and adults welcomed and provided with:</p> <ul style="list-style-type: none"> — a written description of the service in a language which they can understand — information on child safeguarding — the residents' charter — a welcome pack which includes information on their rights and entitlements and statutory services relevant to them — an orientation class in a language and format they can understand? <p>3. Do residents actively participate in the development and regular review of the above, and is their feedback taken into account in a meaningful way?</p> <p>4. Are residents made aware of any records created by staff in respect of their personal information, and are they provided with guidance on how to access these records in line with relevant legislation?</p> <p>5. Does the accommodation centre have a confidentiality policy which clearly outlines limitations to confidentiality, and are residents aware of this policy?</p>
--	---

Dimension: Capacity and capability	
Theme 1: Governance, Accountability and Leadership	
Standard 1.4	
The service provider monitors and reviews the quality of care and experience of children and adults living in the centre and this is improved on an ongoing basis.	
Lines of enquiry	
	<ol style="list-style-type: none"> 1. Is there a culture of active inclusion and consultation with residents in the delivery and planning of the service; for example, do staff encourage and facilitate residents to express their needs and views through different forums (individual and group), and respond to the feedback they receive? 2. Do the needs and views of residents inform the service at all levels, including planning, design and service delivery? 3. Are arrangements in place to evaluate and manage the safety and quality of the service through audit, to ensure the best outcomes for residents living in the accommodation centre? 4. Is there an annual review of the quality and safety of the service conducted with the active involvement of staff and residents to promote continual improvement in the service? Does the annual review of the service provided to residents inform a programme of improvement within the service? 5. Are residents provided with an exit document whenever they are being granted a form of protection status which will help them in their transition to life outside the service, including a guide to local services? 6. Is there a written description of how the centre: <ul style="list-style-type: none"> — proactively protects the human rights of its residents and staff; promotes equality of opportunity and

	<p>treatment of its staff and residents, and eliminates discrimination</p> <ul style="list-style-type: none"> — the model of care and support it delivers — the standard of accommodation — the services and facilities it provides? <p>7. Does this description of the centre reflect the day-to-day operations and key policies and procedures? Is it reviewed, revised and updated in line with contractual requirements and when necessary?</p>
--	--

Dimension: Capacity and capability	
Theme 1: Governance, Accountability and Leadership	
Standard 1.5	
Management regularly consult residents on their views and allow them to participate in decisions which affect them as much as possible.	
Lines of enquiry	
	<ol style="list-style-type: none"> 1. Is there a resident committee in place which is broadly representative of the diversity of residents and which meets regularly? 2. Are arrangements in place to actively seek the views of adults and children, and provide them with information in a way that is understood by all. For example, on a group or individual basis (as appropriate)?

Theme 2: Responsive workforce

Dimension: Capacity and capability	
Theme 2: Responsive workforce	
Standard 2.1	
There are safe and effective recruitment practices in place for staff and management.	
Lines of enquiry	
	<ol style="list-style-type: none"> 1. Is staff recruitment safe and in line with relevant Irish and European legislation and informed by evidence-based safeguarding and human resource practices? 2. Are all staff appropriately vetted by An Garda Síochána (Ireland's national police service)? 3. Do all staff in the service have written job descriptions which include the requirement to establish and maintain relationships with residents which are based on respect for human dignity, equality and diversity? 4. Are all staff, managers and volunteers orientated and inducted into all relevant aspects of the centre on taking up their respective posts? 5. Is there an effective and fit-for-purpose performance appraisal system in place for staff to review the skills and competencies of each staff member or manager during their probationary period, and their performance on an ongoing basis afterwards?

Dimension: Capacity and capability	
Theme 2: Responsive workforce	
Standard 2.2 Staff have the required competencies to manage and deliver person-centred, effective and safe services to children and adults living in the centre.	
Lines of enquiry	
	<ol style="list-style-type: none"> 1. Are there appropriate numbers of staff employed in the centre with regard to the number and needs of the residents and the size, layout and purpose of the service? 2. Do staff have the necessary experience and competencies to meet the needs of the residents? 3. Does workforce planning take account of contingency cover for emergencies or an unexpected shortfall in staff cover? 4. Are arrangements in place to promote staff retention and continuity of staff support to ensure residents experience stability? 5. Is there a reliance on agency or temporary staff in the centre? 6. Does the service provider recruit staff with the necessary skills and experience appropriate to their role and to support them to provide services and support to residents; for example, cultural competency, an awareness of mental health issues and safeguarding, strong communication skills and a compassionate and empathetic style which respects the dignity, equality and diversity of all residents? 7. Where required, are staff registered with their relevant regulatory body? 8. Is there a written code of conduct for staff which is adhered to? Do staff also adhere to the codes of conduct

	of their own professional body, association and or professional regulatory body?
--	--

Dimension: Capacity and capability	
Theme 2: Responsive workforce	
Standard 2.3	
Staff are supported and supervised to carry out their duties to promote and protect the welfare of all children and adults living in the centre.	
Lines of enquiry	
	<ol style="list-style-type: none"> 1. Do staff and managers in the accommodation centre understand their roles and responsibilities, and have clear accountability and reporting lines? Are they aware of policies and procedures to be followed at all times? 2. Are staff and managers in the accommodation centre supported to effectively exercise their personal, professional and collective accountability to provide an effective and safe service and supports? 3. Are there procedures in place to protect staff, managers and volunteers and minimise risk to their safety? Where risk to staff, managers and the safety of volunteers is identified, are procedures followed and is appropriate action taken? 4. Do all staff receive regular formal supervision and support from managers every three months at a minimum, or more frequently if required? 5. Are the skills and competencies of individual staff members reviewed as part of their ongoing performance appraisal? 6. Is a written record kept of all supervision, support and performance appraisals, and is the record provided to staff?

	<p>7. Is an up to date, accurate and secure personnel file maintained for all staff and managers?</p> <p>8. Is there a policy and procedure on protected disclosures? Are staff in the service aware of who they can report a protected disclosure to, and can they do so without fear of adverse consequences to themselves?</p>
--	---

Dimension: Capacity and capability	
Theme 2: Responsive Workforce	
Standard 2.4	
Continuous training is provided to staff to improve the service provided for all children and adults living in the centre.	
Lines of enquiry	
	<p>1. Have all staff been trained to provide person-centred, rights-based and culturally-competent services and supports to all residents in a kind and compassionate manner, which respects the dignity, equality and diversity of all residents?</p> <p>2. Have all staff received appropriate training and development opportunities, equivalent to their role, to meet the needs of residents and to promote safeguarding in the centre?</p> <p>3. Is management and supervision training provided to new managers with line management responsibility?</p> <p>4. Is a training needs analysis undertaken periodically with all staff? Is relevant training provided as part of a continual professional development programme, taking into account the assessed needs of residents?</p> <p>5. Are all staff trained by an appropriately qualified person in the prevention, detection and the requirement to report</p>

	<p>allegations of abuse, and child protection and welfare concerns, in line with legislation and national policy?</p> <p>6. Are staff and residents aware of health and safety procedures in the accommodation centre?</p> <p>7. Are all staff and residents aware of, and do they apply, policies, procedures, guidelines and practice documents in place in the centre; for example, a child protection and welfare policy and a complaints procedure?</p> <p>8. Are all staff and managers provided with training and refresher training in line with the national standards?</p>
--	--

Theme 3: Contingency Planning and Emergency Preparedness

Dimension: Capacity and capability	
Theme 3: Contingency Planning and Emergency Preparedness	
Standard 3.1	
The service provider will carry out a regular risk analysis of the service and develop a risk register.	
Lines of enquiry	
	<ol style="list-style-type: none"> 1. Is there a risk management policy in place that is implemented? 2. Does the risk management policy include a risk register system and does it address: <ol style="list-style-type: none"> a. the ongoing identification and assessment of risks throughout the service b. the measures and actions in place to control the risks identified which are regularly reviewed? 3. Is the centre's risk register made available for inspection, and to the Office of the Ombudsman? 4. Is contingency planning in place to ensure the continuity of services in the event of a disaster or unforeseen event? For example, fire, flood, lack of supply of water or electricity? 5. Do emergency plans take into consideration the needs of all residents including those with a disability? 6. Has the service provider ensured that all residents are informed about fire drills and any emergency protocol at or close to the time of their admission to the centre?

	<p>7. Are fire evacuation routes and exits are clearly marked throughout the centre?</p> <p>8. Is there an appropriate fire detection, alarm and emergency lighting system in the centre, which is known to residents?</p> <p>9. Is the centre's emergency protocol displayed throughout the centre which is accessible to people with communication needs and or language barriers?</p> <p>10. Do residents know what to do in the event of a fire? Are they aware of the exits from their own living or sleeping quarters (single or shared and own door)? Is this clearly displayed in residents' living and or sleeping quarters and in an accessible way?</p>
--	--

Section 2. Dimension of quality and safety

The focus of this section is about how providers achieve best possible outcomes for people using their service. This includes how people:

- make choices and are actively involved in shaping the services they receive
- are empowered to exercise their rights, achieve their personal goals, hopes, and aspirations
- receive effective person-centred care and support, at all stages of their lives
- are able to live in a safe, comfortable and homely environment
- have access to food and drink that is nutritious
- are protected from any harm or abuse.

Theme 4: Accommodation

Dimension: Quality and safety	
Theme 4: Accommodation	
Standard 4.1	
The service provider, in planning, designing and allocating accommodation within the centre, is informed by the identified needs and best interests of residents, and the best interests of the child.	
Lines of enquiry	
	<ol style="list-style-type: none"> 1. Are rooms allocated to residents in a fair and transparent way having regard to: <ul style="list-style-type: none"> — the needs of residents identified in the initial and any subsequent vulnerability assessment, including the resident's sexual orientation and gender identity — the specific health conditions or disabilities of the resident and their requirement for individual rooms

	<ul style="list-style-type: none"> — the preference of the resident, in so far as these can be accommodated? <p>2. Is the design and allocation of the accommodation informed by:</p> <ul style="list-style-type: none"> — familial links — gender — cultural, linguistic, religious background — age specific concerns — the availability of shared accommodation for LGBTQI+ residents? <p>3. Are effective, appropriate and timely liaison arrangements in place between the provider and the Department of Children, Equality, Disability, Integration and Youth in the event of the accommodation being unable to either meet the identified needs and best interests of residents or the best interests of the child?</p>
--	---

Dimension: Quality and safety	
Theme 4: Accommodation	
Standard 4.2	
The service provider makes available accommodation which is homely, accessible and sufficiently furnished.	
Lines of enquiry	
	<p>1. Is there written confirmation in place of compliance with the Housing Act 1966 and building regulations? (3rd party confirmation)</p> <p>2. Does the accommodation:</p>

	<ul style="list-style-type: none"> — provide a minimum space of 4.65m² for each resident per bedroom — provide additional space for persons with a disability where required — have a minimum bedroom ceiling height of 2.4m — have bedrooms with sufficient space to cater for residents' assessed needs — have bedroom fixtures and fittings that meet residents' assessed needs. <p>3. Do residents have bedrooms which:</p> <ul style="list-style-type: none"> — facilitate the range of activities likely to be carried out — offer adequate floor area — have a well-proportioned footprint outline — provide good-quality living environments for residents — adequately accommodate appropriate furniture and equipment while allowing free circulation within that area — receive sufficient natural light — are allocated in a manner determined by the provider on the basis of fair and transparent criteria? <p>4. Is high-quality wireless Internet access available to residents throughout the centre and is information on online safety available to children, young people and their parents?</p> <p>5. Do residents have access to a telephone in a private setting?</p> <p>6. Do shared bedrooms for single persons contain:</p> <ul style="list-style-type: none"> ▪ a television ▪ appropriate seating
--	--

	<ul style="list-style-type: none"> ▪ a table ▪ a bed for each person sharing ▪ a wardrobe or chest of drawers ▪ a lockable unit? <p>7. Are all people aged 15 and over provided with a bed (unless they specifically request a bunk bed)?</p> <p>8. Has the service provider ensured that the accommodation centre complies with building regulations on accessibility for people with a disability insofar as:</p> <ul style="list-style-type: none"> ▪ reasonable provision has been made to enable disabled persons to have safe and independent access to the centre and to those parts of the centre which it is appropriate to have access ▪ reasonable provisions have been made for disabled persons in terms of sanitary conveniences provided in the centre, such as toilets, urinals, sinks, showers and bathtubs? <p>9. Is the accommodation centre appropriately decorated and maintained in good structural condition?</p> <p>10. Are arrangements in place to report maintenance needs and to ensure a prompt response?</p>
--	--

Dimension: Quality and safety	
Theme 4: Accommodation	
Standard 4.3 The privacy, dignity and safety of each resident is protected and promoted in accommodation centres. The physical environment promotes the safety, health and wellbeing of residents.	
Lines of enquiry	
	<ol style="list-style-type: none"> 1. Do all rooms (assigned to residents for their personal use; such as, bedrooms and living quarters) have a working lock? 2. Do residents have safe, secure and reasonable access to an adequate number of high-quality, clean and accessible bathroom facilities? 3. Is there a centre-specific health and safety statement in place which is known to centre staff? 4. Are there arrangements in place for single residents to apply for a single bedroom after nine months, which ensure they are provided with a single room within a 15-month period (in so far as it is possible)? 5. Are all residents provided with a bedroom locker for safe storage of personal items? 6. Do residents have access to a secure storage facility outside of shared areas in the service to store items such as suitcases?

Dimension: Quality and safety	
Theme 4: Accommodation	
Standard 4.4 The privacy and dignity of family units is protected and promoted in accommodation centres. Children and their care givers are provided with child-friendly accommodation which respects and promotes family life and is informed by the best interests of the child.	
Lines of enquiry	
	<ol style="list-style-type: none"> 1. Are family members, including children and their care givers, placed together in the accommodation centre and in line with the best interest of the child? 2. Are all families and young people provided with: <ul style="list-style-type: none"> — their own private living space in addition to their sleeping quarters — sleeping arrangements which promote the privacy of all family members and meet the needs of children — a sufficient number of suitable beds — an en-suite or access to a bathroom designated for their own use — own-door accommodation. Where own door accommodation does not include a kitchen, are basic food preparation facilities in place, such as a kettle, toaster and fridge?

Dimension: Quality and safety	
Theme 4: Accommodation	
Standard 4.5 The accommodation centre has adequate and accessible facilities, including dedicated child-friendly, play and recreation facilities.	
Lines of enquiry	
	<ol style="list-style-type: none"> 1. Are residents actively included and involved on an ongoing basis in decisions about the design and planning of recreational and multi-purpose spaces for children and adults, to ensure they are accessible, well-furnished and equipped? 2. Are children and young people actively involved and included in decisions on safe, appropriate, secure and adequate indoor and outdoor play, sports and recreation spaces, and facilities for youth club meetings and events? Do they have access to these spaces; for example, for celebratory events? 3. Do children and young people have sustained access to a range of age-appropriate toys and games, which are in good condition and meet their developmental and creative needs? 4. Do adults have access to adequate indoor and outdoor recreation and sports facilities which meet their needs? 5. Are residents supported to integrate with their local community through community access to onsite facilities? 6. Are children and young people supported and facilitated to participate in social and recreational activities appropriate to their developmental level and age? 7. Are the recreational needs of children promoted through appropriate centre transport?

	<ol style="list-style-type: none"> 8. Are residents supported and facilitated to practise their religion and worship through the provision of a non-denominational space in the accommodation centre? 9. Do children and their families have access to an appropriate space to host family and friends? 10. Are fair and transparent processes and procedures in place for residents to access any communal or multipurpose areas? 11. Are all play, recreation and multipurpose spaces sufficiently furnished, fit for purpose, accessible for all residents including those with a disability, clean and regularly maintained?

Dimension: Quality and safety

Theme 10: Identification, Assessment and Response to Special Needs

Standard 10.3

The service provider has an established policy to identify, communicate and address existing and emerging special reception needs.

Lines of enquiry

	<ol style="list-style-type: none"> 1. Is there a systematic, fair and transparent mechanism in place to assess all residents for ongoing and or additional special reception needs, and to ensure special reception needs are identified where these needs become apparent after being placed in the centre? 2. Is the accommodation centre's reception officer proactive in identifying the special reception needs of residents on an ongoing basis? 3. Does the centre manager liaise with the relevant government department if:
--	---

	<ul style="list-style-type: none"> — the accommodation centre is unable to accommodate or cater for the special reception needs of a resident — supports and services are not available in the locality to meet the special reception needs of a resident — special arrangements or measures need to be taken to accommodate or cater for the special reception needs of a resident within the accommodation centre? <ol style="list-style-type: none"> 4. Are the special reception needs of residents and how they are met, been met or are the plans to be met documented and stored in a safe and confidential manner? 5. Are written plans to meet the needs of vulnerable residents in place and monitored for implementation and effectiveness? 6. Is the relevant government department kept informed of a resident's special reception needs? 7. Are the special reception needs of residents responded to promptly and adequately, and are referrals made to relevant health and social care services, government agencies, statutory bodies or support organisations, as required? 8. Does the centre's reception officer cooperate and collaborate with providers, support organisations and statutory and non-statutory agencies to promote the health and development of residents with special reception needs, and ensure their needs are met? 9. Does the service provider have a mechanism in place to ensure residents with special reception needs are regularly monitored in conjunction with the centre's reception officer? 10. Are residents encouraged and actively supported to attend follow-up vulnerability assessments? 11. Are arrangements in place to assist and enable residents with special reception needs to access appropriate
